JASON STUART
GAY COMEDY WITHOUT A DRESS

MODERN ARTISTS

Trying to capture the feeling of a standup comedy routine on CD is not any easy task. Without being able to see the performer, everything rests on comedic timing and strong written material. For Jason Stuart, the process of creating a consistently funny CD appears effortless.

Gay Comedy without a Dress is Stuart's first outing in this format and the result is a genuinely humorous CD that moves at a clipped pace.

The jokes, and the many subtle side comments, follow in rapid succession without so much as a pause in the action. The jokes and nuances are so rapid, the recording demands constant attention. This is definitely not a background CD in any shape or form.

Recorded during a performance at the Acme Comedy Club in Minnesota, the recording captures the intimacy and feel of a comedy club. The banter between Stuart and the audience is lively and as strong as his composed material. This is also aided by the fact that he is more than able to play off this very appreciative crowd.

If there is such a thing as a distinctive gay comedic sensibility, being an openly gay Jewish comic, Stuart takes more than a few stabs at religion, family and relationships. Also included are a few pokes at celebrities such as Cher, Whitney Houston, Richard Simmons and, of course, the Clintons.

Comedy CDs that can maintain a consistent rhythm are rare. If you can only buy one comedy CD, either gay or straight, this is the one to purchase—it will be worth the time.
